1. **App Logo** - Need a more brighter logo because in the app list is difficult to find - may be lets go with brighter colour in the background of the elephant (instead of White)

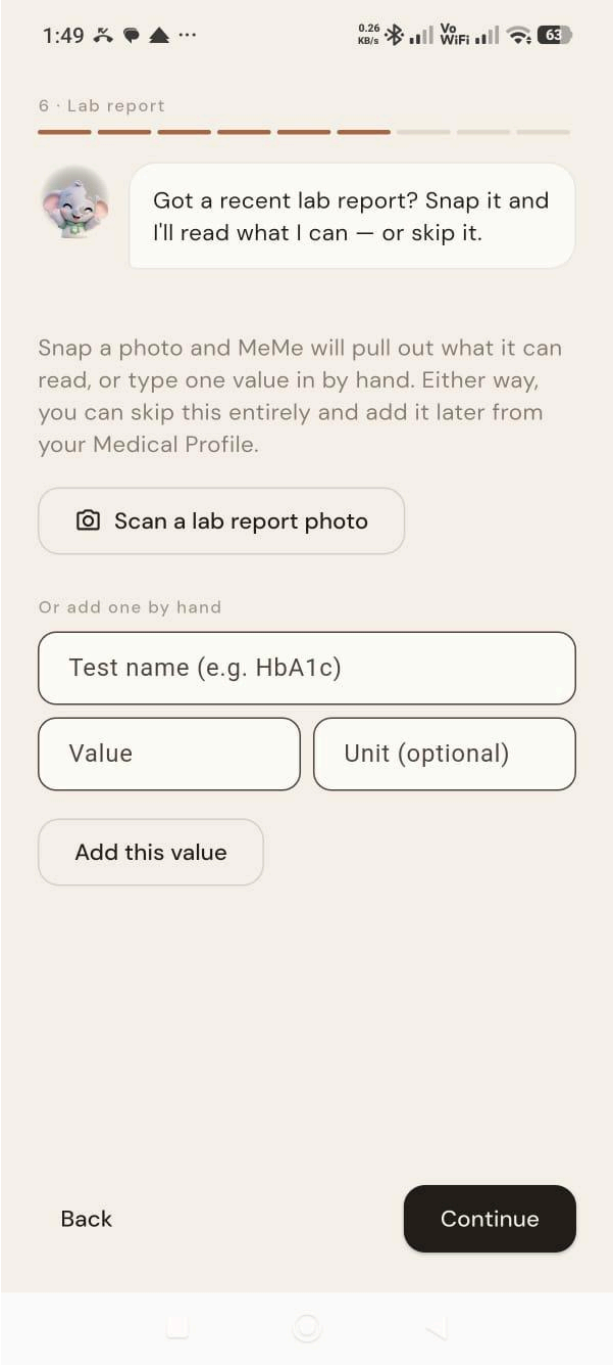

2. In the very first starting screen as part of new user - the elephant logo is distorted. Please check the screen shared.

Login & Profile Registration

1. Regarding lab report upload - current app provide only image to upload.
   Now it is necessary to upload the PDF and get a consolidated report value in list to add to the backend against date

1. When giving an input like “Yesterday i had 2 chapati for dinner” for this the log was not created against yesterday night 8 PM / or necessary time matching for dinner

2. When each time the log confirm is asked like

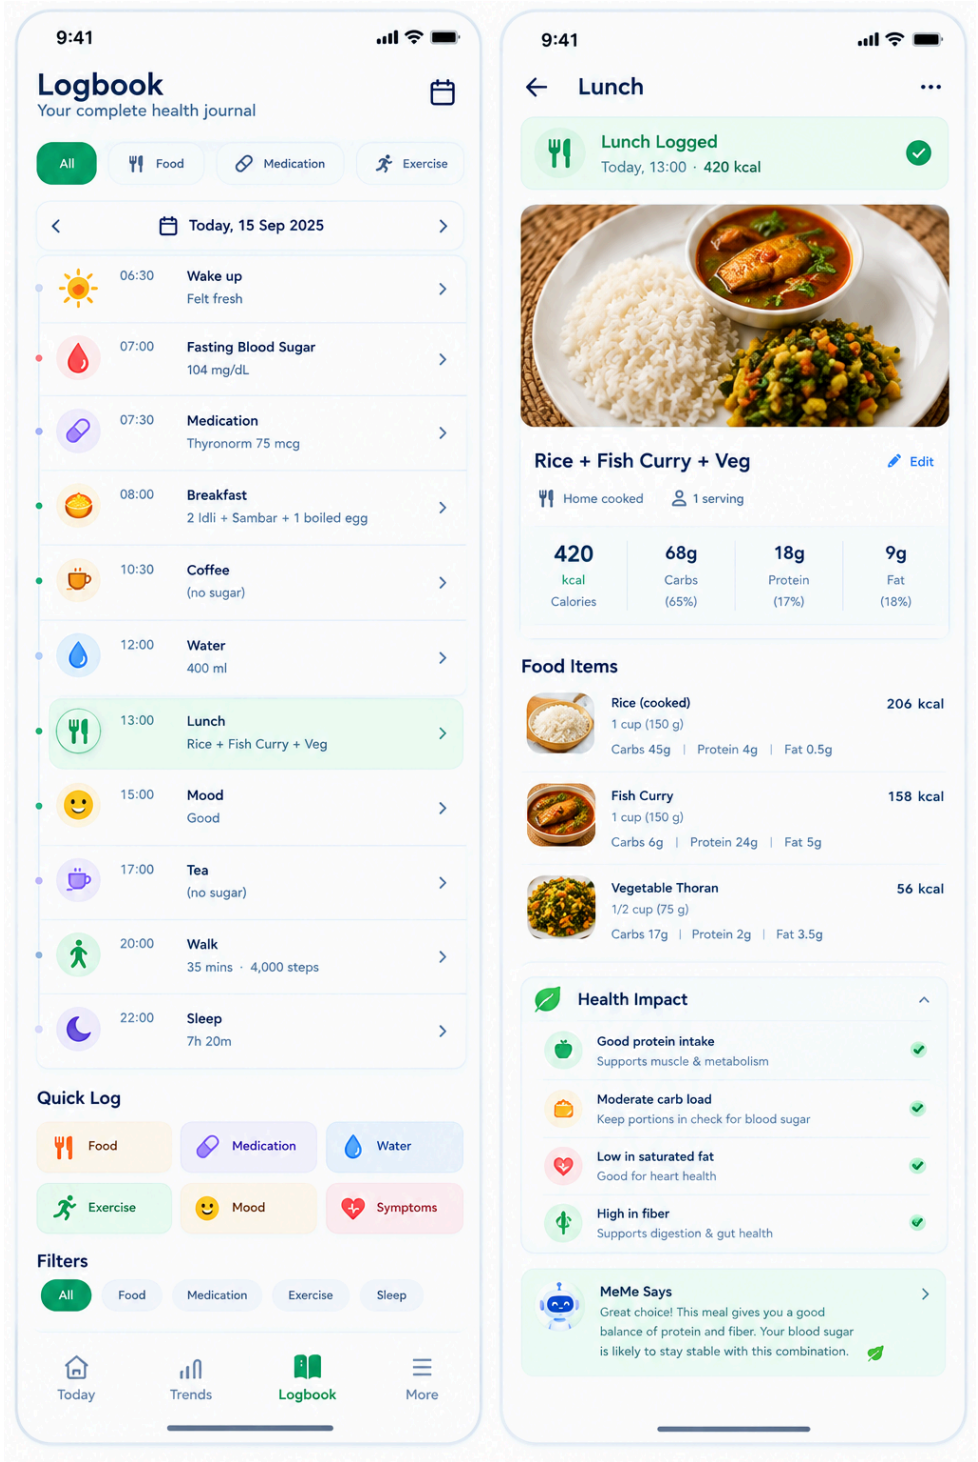

1. When i try create a account using an already existing email id -> it was showing error in account creation but not clearly mentioned as account already exist and ask to log in

Example of Today, Trends, Logbook pages - Need to adapt to our current design

Today Trends Logbook

Logbook Specific Detailed view

Trend Page Read View -> And make Read view as the default view of trend page
